**Die Well Death Education: The Nature Process of Dying**

"We're all going to die, so why don't we talk about it? I'm not saying talk about it so incessantly that people generally avoid you, (although you can if you want - I usually do) but rather talk about what we would like our end-of-life experience, our death, and our disposition to look and be like. With clear and concise communication and preparation, you can - and will - create the strongest possibility that you will experience a 'good death.'" - Leona Oceania, from Die Well Death Education
